

Trend Micro™

WORRY-FREE™ BUSINESS SECURITY

Fast, effective, and simple-to-manage protection - so you can focus on your business

Just like larger companies, smaller organizations and businesses need to make the most of limited budgets and resources. And when it comes to IT security they need protection that fits their unique requirements. Enterprise security solutions or consumer products will not do.

Trend Micro™ Worry-Free™ Business Security software solutions provide fast, effective security that will have minimal impact on your computers' performance.

Worry-Free means it runs quietly in the background so you can focus on your business. It uses global threat intelligence from **Trend Micro™ Smart Protection Network™** to stop threats before they reach your computers. It's a lot like having a global neighborhood watch group, keeping an eye on your business.

Worry-Free Business Security solutions provide you with feature-rich, enterprise protection without the management hassles or increased costs. The upgraded version is faster and leaner, allowing you to use your computers without fear of interruption or data loss.

KEY WORRY-FREE BUSINESS SECURITY BENEFITS AND FEATURES

- Installed easily and simple to use - no IT expertise required
- Stops threats in the cloud - before they can reach your network and devices
- Filters URLs - blocks access to inappropriate websites
- Prevents data loss- via email messages and USB drives
- Blocks spam and safeguards against phishing as well as social engineering attacks
- Integrates with the Windows Server 2012 Essentials console
- Supports Windows 8 and Windows Server 2012

Trend Micro™ Worry-Free™ Business Security Standard

Worry-Free Business Security Standard handles your client and server protection so you and your employees can focus on what you do best, running and growing your business. Designed specifically for organizations with limited IT resources, Worry-Free Business Security stops threats before they can reach your business. It's security that won't slow you down.

Trend Micro™ Worry-Free™ Business Security Advanced

Worry-Free Business Security Advanced includes everything covered by Worry-Free Business Security Standard plus data loss prevention through email, spam blocking before and on the Exchange Server, and protection for Macs in addition to Windows computers.

“Using Worry-Free business solutions has allowed me to manage our Internet security from my own computer, and it really doesn't require much of me. It's simple and effective and it allows us to really focus on accomplishing our mission.”

Todd Mills, Director of Development and Marketing, Local Matters, an Ohio non-profit organization

HOSTED SECURITY SERVICE

Worry-Free Business Security also comes as a cloud security service hosted by Trend Micro, so you don't need a server to enjoy worry-free protection. Trend Micro™ Worry-Free™ Business Security Services gives you simple-to-manage protection for Windows, Macs, and Androids devices. It is protection that can grow as your business increases without needing to grow your IT staff.
